Professional summary

Creative and experienced front facades with experience in designing and developing interactive and fast user facades using the latest technology such as React.js I have a deep understanding of HTML5, CSS3, Javascript/Typescript and make sure to apply best development practices to ensure a distinguished user experience and high performance. I have experience working with libraries and modern business frameworks such as Next.js as well as strong SEO skills and improve sites.

I enjoy the ability to cooperate with background teams and UI/UX designers to convert the requirements into effective technical solutions. I always strive to keep pace with the latest development trends and improve the quality of the code through unit test and tools like Jest or Cypress.

Education

Front-end Developer

2023 - PRESENT

"I learned self -programming through electronic resources and personal projects. I have a great passion for designing and developing interactive web sites using HTML, CSS and JavaScript, and I always strive to improve my skills and face new challenges. I believe in providing excellent user experiences by writing clean and effective codes, and keeping pace with the latest web development technologies."

Professional experience

- E-Commerce Website

Live: https://shopping-store-mzmy-jgf1klvtx-abdelmageedbahers-projects.vercel.app/

Repo: https://github.com/AbdelmageedBaher/Shopping-Store

"I participated in an internship project for an online store, where I was responsible for developing and designing the checkout, login, and registration pages. I implemented best practices for user experience and data security to ensure smooth and efficient operations."

Techniques used: React & Bootstrap

Results: 1- I gained experience in [API] by applying it in building these pages.

2- I developed my ability to work within a team, coordinating with other team members to ensure the integrity of the pages I worked on.

3- I enhanced my Frontend Development skills by working on designing and developing complex pages such as checkout, login, and new user registration.

4- I was able to seamlessly integrate these pages with the rest of the e-store components, ensuring a seamless user experience.

- EDUCATION-WEBSITE

Live: https://khaledmelgharib.github.io/education-website-/

Repo: https://github.com/khaledmelgharib/education-website-

Responsive Design: The website adapts to various devices, ensuring a seamless user experience on smartphones, tablets, and computers.

Diverse Educational Content: The site includes lessons across multiple fields, catering to the different needs of learners.

This project reflects my passion for education and technology, aiming to make a positive impact on the learning experience.

- SOCIAL-MEDIA-WEBSITE (By Real Api)

Live: https://rococo-monstera-37fec9.netlify.app/

Repo: https://github.com/khaledmelgharib/socialMedia-api
